Forecast For Wales
Issued by Met Office Exeter
at 1600 on Saturday 18 Dec 2021

++ Valid for broadcast between 1800 and 0600

Headline:
Murky in the east, clearer skies further west.

This Evening and Tonight:
Skies staying relatively clear for higher parts of the mountains and western coastal regions, allowing it to turn locally frosty at low levels. Murkier to the east as cloud lowers, bringing mist and some fog. Minimum temperature -2 deg C (28 deg F).

Sunday:
A generally cloudy and rather chilly day in central and eastern parts of Wales with mist and murk slowly lifting. Sunnier in western areas and feeling quite mild here. Maximum temperature 10 deg C (50 deg F).

Outlook for Monday to Wednesday:
Remaining dry and settled. Many areas cloudy at first but some sunshine is likely, especially on Wednesday. Fog in places overnight and feeling colder with increasing likelihood of frost.
